10W, DIY AC/DC converter

FEATURES

Ultra-wide 85 - 305VAC and 100 - 430VDC input voltage range

MORNSUN®

- Accepts AC or DC input (dual-use of same terminal)
- Operating ambient temperature range -40 $^\circ C$ to +85 $^\circ C$
- Multi application, flexible layout
- Compact size, high power density, green power
- No-load power consumption as low as 0.1W
- Output short circuit, over-current, over-voltage protection
- Designed to meet IEC/EN61558, IEC/EN60335 standards
- IEC/EN/UL62368 safety approval

LS10-13BxxR3 series is one of Mornsun's highly efficient green power AC-DC Converter series. They feature wide input range accepting either AC or DC voltage, high efficiency, low power consumption and Class II reinforced insulation. All models are particularly suitable for industrial control, electric power, instrumentation and smart home applications which have high requirement for dimension and don't have high requirement on EMC. For extremely harsh EMC environment, we recommend using the application circuit show in Design Reference of this datasheet.

| Selection Guide | | | | | | | |
|-----------------|--------------|--------------|---|----------------------------------|------------------------------|--|--|
| Certification | Part No. | Output Power | Nominal Output Voltage and Current (Vo/Io) | Efficiency at 230VAC (%) Typ. | Capacitive Load (µF) Max. | | |
| | LS10-13B03R3 | 6.6W | 3.3V/2000mA | 73 | 1500 | | |
| | LS10-13B05R3 | _ | 5V/2000mA | 77 | 1500 | | |
| | LS10-13B09R3 | | 9V/1100mA | 80 | 1000 | | |
| CE/UL/CB | LS10-13B12R3 | 10W | 12V/830mA | 82 | 680 | | |
| | LS10-13B15R3 | | 15V/670mA | 82 | 470 | | |
| | LS10-13B24R3 | | 24V/420mA | 83 | 330 | | |

Note: 1. The nominal output voltage refers to the voltage applied to the load terminal after adding external circuits;

2. If the product is used in a severe vibration application, it needs to be glued and fixed.

| Input Specifications | | | | | |
|---------------------------------|----------------------|---|------|------|------|
| Item | Operating Conditions | Min. | Тур. | Max. | Unit |
| Input Voltage Range | AC input | 85 | | 305 | VAC |
| | DC input | 100 | | 430 | VDC |

MORNSUN[®]

Product Characteristic Curve

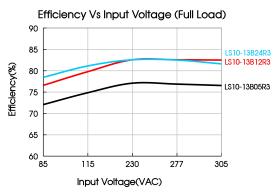

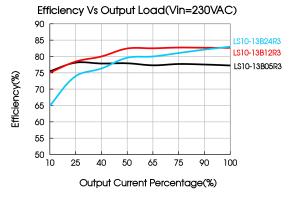

Note:

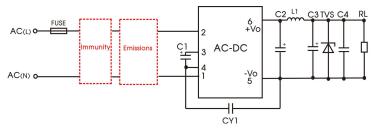

100 With an AC input between 85 -100VAC/277- 305VAC and a DC input between 100 - 120VDC/390 - 430VDC, the output power must be derated as per temperature derating curves;

(2) This product is suitable for applications using natural air cooling; for applications in closed environment please consult factory or one of our FAE.

| LS10-13B24R3 | | 470uF/35V | | 220uF/35V | | | SMBJ30A |

Note:

1. C1 is used as filter capacitor with AC input (must be connected externally) and as EMC filter capacitor with DC input (must be connected), and it is recommended to use the capacitor with ripple current >300mA@100KHz.

2. We recommend using an electrolytic capacitor with high frequency and low ESR rating for C3 (refer to manufacture's datasheet), electrolytic capacitor can be used for C2 when applied in normal and high temperature environments. Combined with C2, L1, they form a pi-type filter circuit. Choose a capacitor voltage rating with at least 20% margin, in other words not exceeding 80%, C4 is a ceramic capacitor, used for filtering high frequency noise.

3. A suppressor diode (TVS) is recommended to protect the application in case of converter failure and specification should be 1.2 times of the output voltage.

Note:

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220134;
- 2. External electrolytic capacitors are required to modules, more details refer to typical applications;
- 3. This part is open frame, at least 6.4mm creepage distance between the primary and secondary external components of the module is needed to meet the safety requirement;
- 4. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%, recommended circuit, nominal input voltage (115V and 230V) and rated output load;
- 5. All index testing methods in this datasheet are based on our company corporate standards;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- 7. Products are related to laws and regulations: see "Features" and "EMC";
- 8. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
