- Notes:** 1) Under the ambience with dangerous gas like H₂S, SO₂ or NO₂, plastic sealed type is recommended; Please test the relay in real applications.
 If the ambience allows, flux proofed type is preferentially recommended.
 If water cleaning is required after the relay is assembled on PCB, please contact us for suggestion about suitable parts.
- 2) If the application belongs to inductive load, AgSnO₂In₂O₃ contact material is recommended. Please add a special suffix (325) to stand for this special contact material in the ordering information.
