# WYSWIETLACZE DLA PRZEMYSŁU NAFTOWEGO PETROLEUM EQUIPMENT DISPLAYS

Jako profesjonalny projektant i dostawca wyświetlaczy LCD dla przemysłu naftowego, Blaze Display zbudował relacje biznesowe z ponad 60% zasłużonymi firmami w tej branży i oferuje silne wsparcie techniczne.

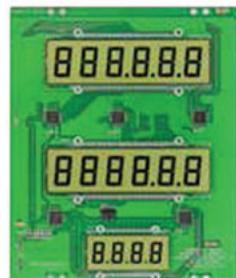

## NAJWAŻNIEJSZE CECHY:

- » bezpieczeństwo produktów,
- » długa żywotność: 150000+ godzin,
- » bardzo szeroki zakres temperatury pracy:  
-40°C ~ +90°C,
- » krótki czas odpowiedzi,
- » duża jasność: czytelny pod światłem słonecznym,
- » wysoki kontrast,
- » funkcje antystatyczna i UV,
- » szeroki kąt widzenia,
- » podświetlany wyświetlacz LED, sprawny energetycznie i długotrwały.

As a professional LCD display designer and supplier in petroleum industry, Blaze Display has built up business relationship with over 60% distinguished companies in this field, and is famous for Blaze's strong technical support.

## MAIN FEATURES:

- » fuel-friendly and high security
- » long life time: 150 000+ hrs
- » super wide working temperature range: -40°C ~ +90°C
- » fast response time
- » high brightness: sun light readable
- » high contrast ratio
- » anti-static and UV function
- » wide viewing angle
- » LED back lighting, energy efficient and long lasting

# WYŚWIETLACZE DO WIND ELEVATOR DISPLAYS

Wyświetlacz do wind zazwyczaj muszą być dostosowywane pod względem wyświetlanych informacji o obecnym piętrze, dacie, czasie z dynamiczną animacją ruchu windy.

Większość wyświetlaczy windowowych to wyświetlacze typu segmentowego i punktowego w kolorze czerwonym, niebiesko-białym, czarno-białym, zielonym, pełnym kolorze i innymi.

## NAJWAŻNIEJSZE CECHY:

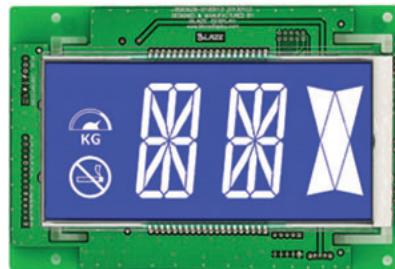

- » duża rozdzielcość,
- » różnorodność opcji rozmiaru ze względu na potrzeby pracy windy i reklamy,
- » podświetlany wyświetlacz LED z dużą jasnością i wysokim kontrastem,
- » odporny na wibracje i zakłócenia elektromagnetyczne,
- » technologie: TN / HTN / STN-Blue / VA-Black / TFT / LED Backlight.

Display for Elevator usually needs to be customized, with appointed display content about floor 1~99, over-load, date, time with dynamic show to run direction and so on.

Most of elevator displays are segment type and dot matrix type, and color can be red, blue-white, black-white, green, full color and others.

## MAIN FEATURES:

- » high resolution
- » a variety of size options for the needs of elevator operating and advertising
- » LED backlight with high brightness & contrast
- » vibration & electric-magnetic interference
- » anti-vibration (shock resistance)
- » technology: TN / HTN / STN-Blue / VA-Black / TFT / LED Backlight

# WYŚWIETLACZE LCD DLA INSTRUMENTÓW POMIAROWYCH O NISKIEJ TEMPERATURZE PRACY

## METERING LCD DISPLAYS LOW TEMPERATURE WORKING ENVIRONMENT

Do tej pory Blaze Display wyprodukował około 10 bilionów wysokiej jakości, niezawodnych wyświetlaczy LCD o długiej żywotności, szerokim zakresie temperatury pracy i funkcji anty-UV dla branży pomiarowej. Nasze wyświetlacze LCD są szeroko stosowane w miernikach zużycia energii, wodomierzach, gazomierzach, miernikach mocy itd.

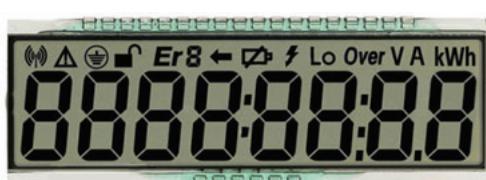

### NAJWAŻNIEJSZE CECHY:

- » długa żywotność: 15-20 lat,
- » szeroki zakres temperatury pracy -40°C ~ +85°C,
- » anty-UV i antystatyczność,
- » niski pobór mocy.

So far, Blaze Display supplied around 10 billion high quality and reliability LCD displays with long life time, super wide operating temperature, and anti UV function for metering industry. Our Metering LCD Displays are widely used for kWh Meter (single phase and three phase meter), smart energy meter, prepayment energy meter, multifunction energy meter, water meter, gas meter, power meter and so on.

### MAIN FEATURES:

- » long life time: 15-20 years
- » super wide operating temperature: -40°C ~ +85°C
- » anti UV and static
- » scrape rate control within 0.1%
- » low power consumption

# WYSWIETLACZE DO SPRZĘTU MEDYCZNEGO MEDICAL DEVICE DISPLAYS

Blaze Display produkuje rozmaite wyświetlacze LCD do zastosowań w instrumentacji medycznej wymagającej wysokiej jakości i precyzji wyświetlania. Nasze tablice świetlne są sztywne i odporne na wstrząsy, więc nadają się do montowania w salach operacyjnych. Dodatkowo, nasze wyświetlacze są czytelne przy świetle słonecznym i odpowiednie do urządzeń przenośnych.

## NAJWAŻNIEJSZE CECHY:

- » wysoka rozdzielcość,
- » niski współczynnik odbicia światła,
- » zintegrowany monitoring,
- » zgodny z RoHS.

Blaze Display manufactures various LCD displays for medical devices which have high definition and high precision medical imaging capability. Our medical display boards are rigid and shock resistant, thus able to withstand any physical impact in operating rooms. In addition, our displays are sunlight readable and suitable for portable devices.

## MAIN FEATURES:

- » high resolution
- » low reflectance
- » integrated monitoring
- » RoHS compliance

# WYŚWIETLACZE SAMOCHODOWE AUTOMOTIVE DISPLAYS

Znajdują zastosowanie w nawigacjach GPS, klimatyzacjach, prędkościomierzach, systemach audio, tablicach rozdzielczych, zegarach, wskaźnikach biegów, telewizji itd.

## NAJWAŻNIEJSZE CECHY:

- » zgodność ze standardem ISO/TS 16949,
- » dostępność wyświetlaczy TFT wysokiej rozdzielczości,
- » intensywność kolorów,
- » dobra widoczność dzięki optycznej przyczepności szklanej osłonki,
- » szeroki kąt widzenia,
- » długa żywotność (do 20 lat),
- » system antywibracyjny,
- » rozszerzony zakres temperatury pracy do +90°C.

Automotive LCD displays are mainly customized and designed for high quality, high reliability and working in best performance, which can be in application of various car components, such as GPS navigation, climate control, speedometer, car audio, dashboard, clock, gear indicator, televisions and so on.

## MAIN FEATURES:

- » meet ISO/TS 16949 Standard
- » TFT available in high resolution
- » vivid colors available
- » good visibility by optical adhesion of cover glass
- » I2C/SPI interface with LED backlight
- » super wide viewing angle
- » anti glare and high brightness
- » long life time range up to 20 years
- » anti-vibration
- » extended operating temperature range up to +90°C

# WYŚWIETLACZE CYFROWYCH WAG DIGITAL WEIGHING SCALE DISPLAYS

Firma Blaze produkuje różne niestandardowe wyświetlacze, wykorzystywane w podstawowych wagach cyfrowych, sklepowych, medycznych itd.

## NAJWAŻNIEJSZE CECHY:

- » interfejs I2C/SPI,
- » niskie zużycie mocy,
- » szeroki kąt widzenia,
- » opcjonalnie wyświetlacz z matrycą punktową i segmentowy,
- » polecenie przesunięcia na każdej linii niezależnie,
- » kompaktowy projekt o dużej niezawodności,
- » opcjonalnie panel dotykowy,
- » technologie HTN / STN / FSTN o zielonym / żółto-zielonym / niebieskim / szarym tle i podświetleniu LED.

Your scales weigh the heaviest commitment in the world, and we help accurately display it. We make various customized displays used for basic digital scales, price computing scales, counter scales, medical scales and so on.

## MAIN FEATURES:

- » I2C/SPI interface available
- » ultra-low power consumption
- » wide viewing angle
- » dot matrix type and segment type for option
- » command of shifting on each line independently
- » compact design with high reliability
- » touch panel (optional)
- » HTN / STN / FSTN technologies in green / yellow-green / blue / gray background with LED backlight available

# WYSWIETLACZE DO ZASTOSOWAN WOJSKOWYCH I OBRONNYCH MILITARY & DEFENSE DISPLAYS

Firma Blaze współpracuje z wieloma kontrahentami z sektora obronnego dzięki niezawodności swoich produktów.

During the countless times maintenance of world peace and justice, LCD from Blaze always follows like a shadow. With the high reliability of our products, we have established long-term cooperation with some overseas defense contractors.

## NAJWAŻNIEJSZE CECHY:

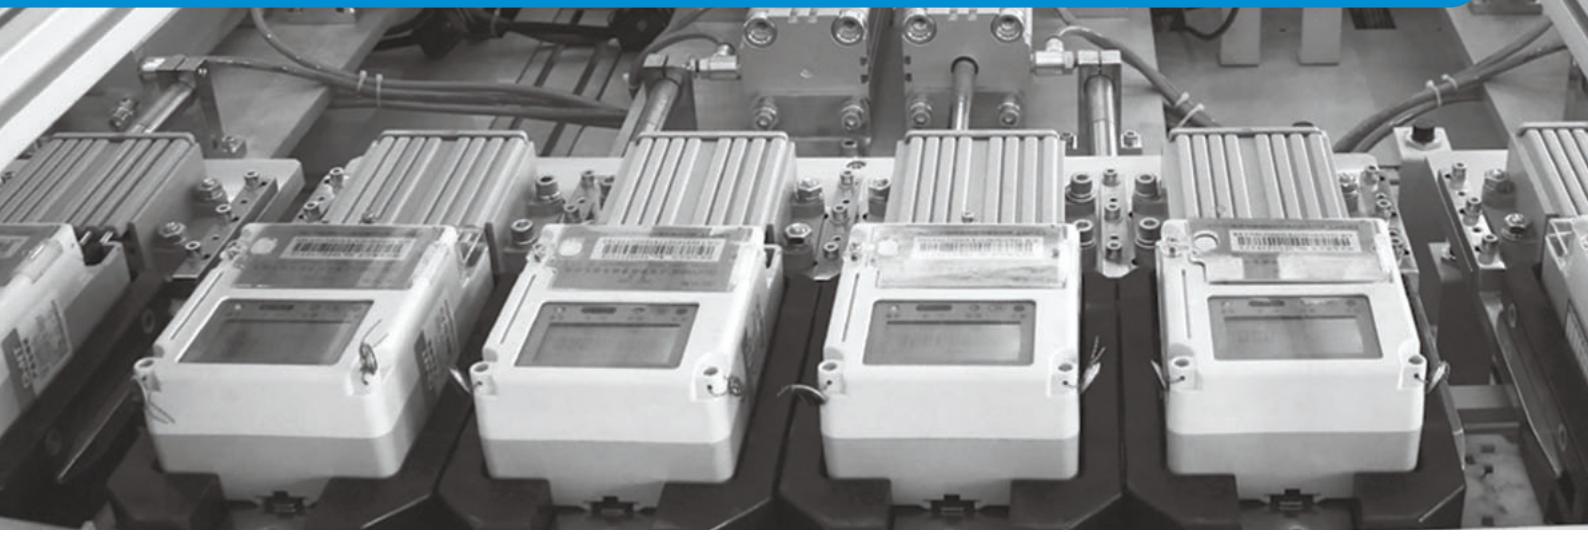

- » wysoki kontrast, duża jasność,
- » system antywibracyjny,
- » zgodność z standardem wojskowej normy: MIL-STD-810G,
- » czytelny przy świetle słonecznym z szerokim kątem widzenia,
- » anty-UV,
- » szybki czas odpowiedzi i duża częstotliwość,
- » różne połączenia wejść jak USB, RS-232, RS-486, itp.

## MAIN FEATURES:

- » high contrast & high brightness
- » anti-vibration
- » meet US Military Standard: MIL-STD-810G
- » allowing readability in direct sunlight with a wide viewing angle
- » anti UV
- » quick response time, refresh rate to avoid lag
- » parallel/serial communications interface
- » various input connections, such as USB, RS-232, RS-485, etc.

# PŁYTKA INTELIGENTNEGO KONTROLERA Z WYSWIETLACZAMI LCD SMART CONTROLLER BOARD WITH LCD DISPLAYS

Blaze oferuje również kompleksową usługę od projektowania płytka do lutowania SMD.

Apart from being a professional LCD display manufacturer, Blaze also provides one-stop service from smart main board design to SMD which can bring more convenience for our customer.

## NAJWAŻNIEJSZE CECHY:

- » prostota testu i instalacji produktów,
- » szeroki zakres zastosowań,
- » dostosowanie do potrzeb klienta,
- » wysoka jakość,
- » dostępna płytka konwertująca,
- » opcje interfejsów: RGB, RS232, MCU, LVDS, itp.

## MAIN FEATURES:

- » convenient for testing and installation
- » wide application field
- » customized as per customer's requirements
- » high quality standard
- » conversion board available
- » multi-interface options: RGB, RS232, MCU, LVDS, etc.

## RODZAJE PRODUKTÓW:

Płytki inteligentnego kontrolera z modułem LCD do systemów diagnostyki medycznej

Płytki inteligentnego kontrolera z modułem LCD do zastosowań domowych

Smart Controller Board with LCD Module for Medical Control System

Smart Controller Board with LCD Module for Home Appliance

Płytki inteligentnego kontrolera z LCD typu COG do Instrumentów

Smart Controller Board with COG Type LCD for Instrument

Płytki inteligentnego kontrolera z modułem LCD do sprzętu przemysłowego

Płytki inteligentnego kontrolera z panelem LCD do wind

Smart Controller Board with LCD Module for Industrial Equipment

Smart Controller Board with LCD Panel for Elevator

## PRODUCT CATEGORIES

Jako rzetelny projektant i producent wyświetlaczy LCD, Blaze Display oferuje rozwiązania w zakresie LCD, takie jak: monochromatyczne panele LCD z technologią TN, HTN, STN, FSTN, DFSTN i moduły LCD z technologią COB, COG, TAB, SMT, wyświetlacze TFT, OLED, LED blacklight, tuby wideo LED i ekranы dotykowe. Oferta obejmuje najlepsze techniczne i komercyjne rozwiązanie do każdych wymagań systemu wyświetlaczy, włącznie ze standardowymi i dostosowanymi wersjami produktów.

As a reliable LCD display designer and manufacturer, Blaze Display provides LCD display solutions including monochrome LCD panel with TN, HTN, STN, FSTN, DFSTN technology and LCD module with COB, COG, TAB, SMT technology, Color TFT displays, OLED displays, LED backlight, LED digital-tube and touch screen. We can offer customer with the best technical and commercial solution to any display system requirement including standard and customized design products.

# O FIRMIE BLAZE DISPLAY

## ABOUT BLAZE DISPLAY

- » jest projektantem, badaczem i producentem wyświetlaczy LED z ponad 30-letnim doświadczeniem;
- » jest właścicielem:
  - 3 fabryk;
  - 5 automatycznych linii produkcyjnych;
  - warsztatu 10000m<sup>2</sup>;
- » zatrudnia:
  - 73 inżynierów;
  - ponad 800 pracowników;
- » posiada:
  - certyfikaty ISO 9001 : 2000 i RoHS ze standardem wojskowej normy Stanów Zjednoczonych: MIL-STD-810G, z prawami do importu i eksportu
  - » LCD Display design, research, manufacture
  - » 3 Factories
  - » 5 Automatic Production Lines
  - » 30+ Years' Experience
  - » 73 Engineers
  - » 800 + Workers
  - » 10 000m<sup>2</sup> workshop
  - » ISO 9001:2000 & RoHS
  - » with US Military Standard: MIL-STD-810G
  - » with Import & Export Right

**1982** Rozpoczęcie działalności w dziedzinie rozwoju technologii wyświetlaczy.  
Set up as a display technology researcher.

**1986** Pierwsza linia produkcyjna wyświetlaczy LCD w Chinach.  
As the first LCD Display production line to put into mass-production in China.

**1997** Wprowadzenie nowej linii produkcyjnej przy podstawowej wielkości szkła ITO 14×16 cala.  
Set up one new production line with basic size of 14×16 inch ITO Glass.

**1998** Przełom w technologii STN, rozpoczęcie produkcji na masową skalę i otrzymanie nagrody przedsiębiorstwa wykorzystującego zaawansowaną technologię.  
Has got new breakthrough in STN technology and starting to mass-production and was rewarded as the Hi-tech enterprise.

**2000** Z powodzeniem opracowano technologię COG i rozpoczęto produkcję na masową skalę.  
Successfully developed COG technology and start mass-production.

**2003** Członkostwo w krajowym projekcie „863” - badanie techniki OLED i uzyskanie 4 patentów.  
As the important member in the national project “863” - OLED Technique research, and gained 4 patents.

**2005** Z powodzeniem opracowano moduły CSTN.  
Successfully developed the Color-STN (CSTN) Module products.

**2006** Z powodzeniem opracowano moduły TFT.  
Successfully developed the TFT Module products.

**2008** Przemianowanie na “Blaze Display Technology Co., Ltd.”  
Renamed “Blaze Display Technology Co., Ltd.”

**2009** Z powodzeniem opracowano technologię VA i rozpoczęto produkcję na masową skalę.  
Successfully developed VA technology and started mass production.

**2010** Przyznanie certyfikatu ISO9001:2000.  
Awarded ISO9001:2000 certification.

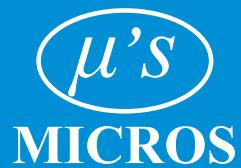

**2011** Pomyślne przejście testów RoHS przez panele i moduły LCD, przyznanie im certyfikatu.  
LCD Panel and Module passed RoHS testing and awarded certification.

**2012** Założenie fabryki Jiangxi LED blacklight.  
Set up Jiangxi LED backlight factory.

**2013** Z powodzeniem opracowano panele LCD które mogły pracować w temperaturze poniżej -50°C do zastosowań militarnych.  
Successfully developed LCD Display which could work properly under -50°C for military supplies.

**2014** Uzyskanie statusu największego dostawcy wyświetlaczy LCD do dystrybutorów paliwa na rynku USA.  
Became the biggest exclusive supplier of LCD Display for fuel dispenser in US market.

**2015** Przygotowanie do założenia nowej fabryki w Jiangxi.  
Preparation for a new factory in Jiangxi.
