

### Silicon Controlled Rectifier series

### 1 Description

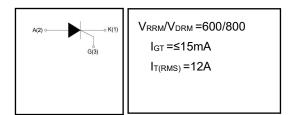

BT151 series of silicon controlled rectifiers, with high ability to withstand the shock loading of large current, provide high dv/dt rate with strong resistance to electromagnetic interference. They are especially recommended for use on solid state TO-220F provides insulation voltage rated at 2000V RMS from all three terminals to external heatsink. TO-220F series comply with UL standards (File ref: E252906).

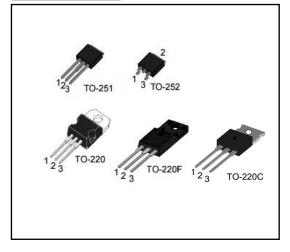

## 2 Features

- High current output up to 12A
- Low Peak on-state voltage drop
- High voltage
- High reliability

### 3 Applications

- relay
- Motorcycle
- power charger
- T-tools etc

### 4 Electrical Characteristics

### **4.1 Absolute Maximum Ratings** (Tc=25 $^{\circ}$ C,unless otherwise noted)

| PARAMETER                                      |            |                           | SYMBOL              | VALUE      | UNIT          |
