## YET822B

### 3 channels wireless receiver

#### 一、Summary

YET822B (3 channels wireless receiver), by the three relay control output 3 channels 220V AC signal, the equipment to control the motor to achieve the positive, reverse or switch on and off conversion and a variety of special control procedures The request. Mainly used in electric doors, windows, lifting equipment, gates, lifts, industrial control and security industries and other fields. The wireless receiver, with high confidentiality, large storage capacity, stable performance, low power consumption characteristics, and easy to use, without the use of traditional jumper or DIP switch coding, just the remote control of the wireless signal The receiving controller to receive and store, you can achieve supporting the use. If the learning remote control is lost during use, it is only necessary to clear the information stored in the receiving controller. The lost remote controller will not be able to remotely control the receiving controller. To re-obtain the right to use, Re-learn once before use.

#### 二、Methods & steps for learning and code elimination

Pressed the button on the receiver, release the button when the LED blinked. The receiver into the learning state (at this time the LED goes out), and then press button of the remote control, when you see the receiver's LED light blink 5 times after the extinguished, that has been successful. You can learn up to 30 remote control buttons of this type.

If the remote control is lost, want to make all the remote control failure, should press the button (more than 8S), until the LED lights off, the receiver will automatically clear the contents of the memory inside. To re-use, just learn again.

#### 三、Main technical parameters

- 1、working voltage: AC220V 50HZ
- 2、Static power consumption:  $\leq 1W$
- 3、Working temperature:  $-40^{\circ}C - +80^{\circ}C$
- 4、Receiving sensitivity:  $\geq -105dBm$
- 5、Working frequency: 315MHz、433MHz (option)
- 6、touching current:  $\leq 10A$
- 7、remote control capacity: 30 (learning code )
- 8、Dimension : 87.5mm\*76mm\*28mm
- 9、control model: Jogging
